DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 5 recites the limitation "different sensors" and "adjacent sensors". There is insufficient antecedent basis for this limitation in the claim. The claim language previously only makes reference to a single sensor; therefore, it is unclear what is meant by "different sensors" and "adjacent sensors".
3. Claims 15-18 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 15-18 all reference "said sensor". It is unclear to which sensor or sensors this is intended to refer.

Allowable Subject Matter

4. Claims 1, 9-12, and 26-29 are allowed.
5. The following is an examiner's statement of reasons for allowance: the prior art does not disclose or suggest "each flow tube interconnecting adjacent sensors is not shielded" in combination with the remaining claim elements of claim 1. Yoshimne et al. does not disclose interconnecting the plurality of sensors; therefore, Yoshimne et al. cannot disclose that the flow tubes interconnecting the sensors are not shielded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

6. Applicant's arguments, see amendments/arguments, filed 11 February 2008, with respect to claims 1, 5, 9-12, 14-18, and 26-29 have been fully considered and are persuasive. The 35 U.S.C. 103 rejections of claims 1, 5, 9-12, and 14-18 have been withdrawn.
